FOR IMMEDIATE RELEASE

DALE YUSHCHYSHYN JOINS PPM 2000'S CONSULTING & TRAINING DIVISION Introducing PPM's Senior Consultant of Incident & Investigation Management.

Edmonton, Alberta, Canada—March 15, 2006—PPM 2000, the leading developer of incident, investigation and case management software, has announced the addition of Dale Yushchyshyn, CPP, to the company's Consulting & Training Division.

In his role as Senior Consultant, Incident & Investigation Management, Dale will work with PPM clients around the world—using his knowledge of risk management, security management, loss prevention and performance management—to provide high quality, subject matter expertise in the customization and application of PPM's incident and investigation management software. Combining his security management background with an intimate knowledge of PPM's software applications, Dale will work to understand each client's day-to-day operations and unique requirements. In turn, he will help PPM's clients select the most effective strategies and options for the customization and deployment of their incident and investigation management systems.

"Dale is a fantastic addition to our team. As a former PPM client, he offers insight into the real-world needs and expectations of our users and, in turn, brings a level of appreciation and understanding to his consulting engagements. He understands the security management side and the issues our clients face, but he also understands the software and the intricacies of a successful deployment," commented Brian McIlravey, CPP, Vice-President of Consulting & Training for PPM 2000. "I am excited to have Dale on board, and I look forward to working with him as we launch Perspective™ and introduce a new era of incident, investigation and case management."

Incident
management
from every
angle

Dale has 15 years of security management experience, most recently as the Assistant Manager of Security and Parking Services for Caritas Health Group, one of Alberta's largest healthcare providers. Dale is an active member of ASIS International, Board Certified in Security Management as a Certified Protection Professional and Board Certified in Parking Facility Management as a Certified Canadian Parking Facility Manager.

About PPM 2000 Inc.:

PPM 2000 was established in 1988 to develop incident reporting and investigation management software for the corporate security industry. They specialize in customizable, turnkey solutions that take routine incident reporting to the next level to spot trends, assess risk and measure performance. Thousands of organizations have implemented a PPM solution, and the company's clients span all industries and include many of the Fortune 1000. PPM 2000 is a Microsoft® Gold Certified Partner.
